

Cancer Care

Ridgeview is committed to developing personal connections with every cancer patient while offering the most advanced approaches to successful cancer treatment. Since 1996, Ridgeview's cancer program has been accredited by the American College of Surgeons Commission on Cancer. This reflects our dedication to improving survival and quality of life for cancer patients.

Here's a look at your generosity in action:

TECHNOLOGY & TREATMENT

We are able to catch, treat and prevent cancers early because of our state-of-the-art diagnostic equipment. Our patients also have access to the latest clinical trials.

TEAM APPROACH

Multidisciplinary care team includes diagnostic imaging, medical oncologist, pathologists, radiation oncologist, and surgeons. Our doctors are consistently listed as a Top Doctor by *Mpls/St. Paul Magazine*.

TRUE-TO-LIFE SIMULATION

We invite cancer survivors in our community to our annual celebration of life. Plus, we refer our cancer patients to Gilda's Club, which offers an entire spectrum of ongoing cancer support.

approximately
500 new cancer cases
diagnosed and/or treated each year

6,600
breast cancer screenings in 2018

291

Low-dose lung cancer CT screenings –
Ridgeview is one of only 26 sites across the country participating in this clinical trial to determine the best ways to implement smoking cessation programs into the community.

Thank You
