

Hospice & Home Care

Ridgeview's Hospice & Home Care services are among the fastest-growing segment of patients served by the organization. With longer life expectancy, shorter inpatient hospital stays and the growth of same-day surgery, more patients and their families want nursing and rehabilitation services in the comfort of their home.

Here's a look at your generosity in action:

PERSONALIZED CARE

Our multidisciplinary team of nurses, therapists, social workers and home health aides provide post-hospitalization care to patients in the comfort of their own homes.

NEW WAYS OF HEALING

Our music therapists use the power of music to give patients an outlet to express their feelings.

GRIEF SUPPORT

Through special events, our hospice team educates our community about bereavement and resources for families who have lost a loved one.
