

# Surgery

From student-athletes to weekend warriors to aging boomers, people of all ages receive comprehensive surgical care at Ridgeview. At both Ridgeview Medical Center in Waconia and Two Twelve Surgery Center in Chaska, we offer our patients the most advanced surgical equipment and surgical techniques.

## Here's a look at your generosity in action:

### IMPROVED PATIENT EXPERIENCE

We've extensively remodeled our Same-Day Surgery, pre- and post-admit area, discharge area, private consultation rooms and patient waiting room to add privacy and enhance the experience for our families.

### LATEST TECHNOLOGY

Since 2001, we've conducted minimally invasive surgeries with the da Vinci® Si, one of the world's most advanced computer-assisted surgical systems.

### INCREASED PATIENT COMMUNICATION

Families can now more easily monitor the progress of their loved ones while they are in surgery with our new private, electronic patient tracking board in our waiting room.

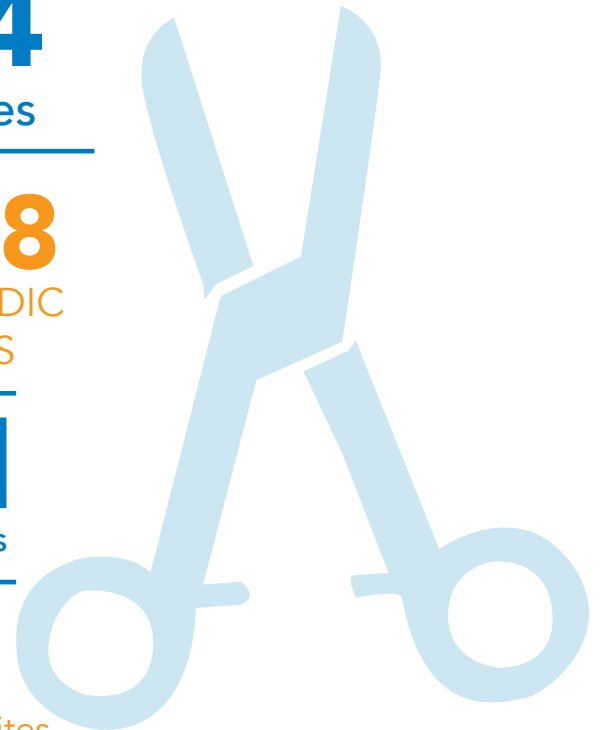

At our Waconia campus:

**6,524**  
total surgeries

**1,438**  
ORTHOPEDIC  
SURGERIES

**1,151**  
general surgeries

**8**  
surgical suites

## Thank You
