

Women & Children

Women are career professionals, mothers and caregivers – not to mention chief decision-makers when it comes to health care. Ridgeview designed the Neonatal Care Unit (NCU), in partnership with Children's Minnesota, and the Center for Women & Children with women and their families in mind. It's wonderful to support women's and children's individual health care needs at all of life's stages.

Here's a look at your generosity in action:

SUPPORT AFTER LOSS

Our partnership with Faith's Lodge allows patients and families to attend one weekend of programming for support after a perinatal loss.

NICVIEW™

NICVIEW is a streaming video option so families can watch the daily progress of their newborn.

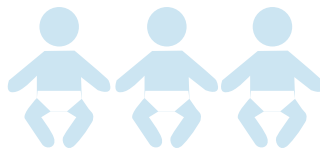

TRUE-TO-LIFE SIMULATION

"Super Tori" is a high-fidelity neonatal simulator that ensures our teams are ready for any situation.

6 spacious birthing suites

20 hotel-like private postpartum suites

2 rooms dedicated to caesarean births

181 NCU PATIENTS were cared for in 2018

1,275 deliveries in 2018

Thank You
